 18—10mm Faceted Beads—Crystal
 1—Gold Styrofoam Ball
 1—Jumbo Angel Wing—JF737
 Doll Hair—White
 1—20 Count Lights—Clear

Tools Needed:

Wire Cutters
 Glue
 Ruler

Directions:

Creating Pins: To add beads to the safety pins, hold one opened pin with the point facing away and up. Add beads as shown in the table at the bottom. Begin putting beads on the pin, starting with the beads listed on the bottom and working your way to the head of the pin. **PLEASE NOTE:** Beads should appear in the same order as shown below. (Make sure to create the number of pins needed of each type, & keep pins separate. 72 pins total.)

#JF546

Step 1. Cut your wire into 1—10”, 1—12”, 1—16”, 2—17” and 2—20” pieces.

See Diagram on next page for wiring pins.

Row 1: Starting at the bottom of the angel. Using 20” of wire, * thread wire through bottom loop of 1- “A” Pin, add 1—6mm Gold Pearl, 1—10mm Faceted Bead, and 1—6mm Gold Pearl. Repeat from * until 18- “A” Pins, 18—10mm Faceted Beads, and 36—6mm Gold Pearls have been used. Pull tight. Twist and cut off excess wire.

Row 2: Using 16” of wire, * thread wire through head of 1- “A” Pin (from previous row), add 1—6mm Gold Pearl, then thread wire through bottom loop of 1- “B” Pin, add 1—6mm Gold Pearl. Repeat from * until 18- “B” Pins and 36—6mm Gold Pearls have been used. Pull tight. Twist and cut off excess wire.

Row 3: Using 20” of wire, * thread wire through head of 1- “B” Pin (from previous row), add 1—8mm Gold Pearl, then thread wire through bottom loop of 1- “C” Pin, add 1—8mm Gold Pearl. Repeat from * until 18- “C” Pins, and 36—8mm Gold Pearls have been used. Pull tight. Twist and cut off excess wire.

Row 4: Using 12” of wire, thread wire through head of 1- “C” Pin, add 1—Rondell, then thread wire through bottom loop of 1- “D” Pin, add 1—Rondell. Repeat from * until 18- “D” Pins, and 36—Rondells have been used. Pull tight. Twist and cut off excess wire.

Row 5: Using 10” of wire, thread wire through head of 1- “D” Pin, add 1—6mm Gold Pearl. Repeat from * until 18—6mm Gold Pearls have been used. Pull tight. Twist and cut off excess wire.

Step 2 Arms: Using 17” of wire, thread wire through the neck of the angel, until you get to the opposite side, this will form the arms, secure one arm * by re-threading the wire back through the neck and out again to form an arm. Repeat from * with other arm (this will make the arms stiffer). Add 20—12mm Star Beads to each side. Bring arms forward, twist wire. **Do Not Cut Yet.**

Step 3 Adding Lights: The very first light must go through the middle of row 3. Bring it through the beads and attach to arms. Twist and cut wire. Put the rest of the lights inside the angel.

Step 4 Head: Glue the Gold Styrofoam Ball on top of the angel.

Step 5 Halo: Using 17” of wire, find the back of the angel in the middle of row 4 attach wire by looping part of the wire and twisting. Add 68—4mm Gold Pearls. The stem of the halo should have 32 beads, and the rest should be used to form a circle for the halo. Twist and cut wire. You may have to glue stem to the head.

Step 6 Adding Wings: glue the flat part of the angel wing to the stem of the halo and the bottom of the wings to row 3.

Step 7 Glue Hair to the Gold Styrofoam Ball. You are done.
